TIER 1 COMPETITORS

---

vs BETER

BETER	Oddin.gg Wins
24/7 simulated events (eFootball, eBasketball)	Real esports tournaments
700K events/year (mostly in-house)	Official publisher data
Full-stack: Live, Gaming, Sports	Pure esports focus = deeper expertise
ESIC Gold Standard	Official rights (PGL, FISSURE)

Their Weakness: Heavy focus on simulated/in-house events, not real esports

Win Message: "BETER does volume with simulated events. We do quality with official tournament data."

vs DATA.BET

DATA.BET	Oddin.gg Wins
770+ markets	Official data partnerships
AI + expert traders	CS2 Major exclusive
Player Props (LoL, Valorant, CS, Dota)	Proven uptime (90%+ FPL)
2D map visualization	Lower latency
Since 2017	Top-tier operator clients

Their Weakness: No exclusive official data rights

Win Message: "DATA.BET has markets. We have official data that makes those markets trustworthy."

---

vs PandaScore

PandaScore	Oddin.gg Wins
AI-powered (PandaVision)	Official rights, not scraped
Free tier available	Enterprise-ready
BetBuilder product	Deeper live markets
13 esports titles	More accurate live odds
Fantasy data	Risk management included

Their Weakness: Computer vision = scraped data, not official

Win Message: "PandaScore uses AI to guess data from streams. We get it direct from publishers."

TIER 2 COMPETITORS

---

vs GRID

GRID	Oddin.gg Wins
Official data (Riot, Ubisoft, KRAFTON)	Full betting solution (not just data)
70+ tournament organizers	Odds feed included
Acquired Bayes Esports	Risk management included
IBIA accredited	Faster integration
Data-only focus	One vendor, complete solution

Their Weakness: Data provider, not betting solution - operators need to build more

Win Message: "GRID sells data. We sell a ready-to-deploy betting product."

---

vs SIS.tv

SIS.tv	Oddin.gg Wins
Simulated events (eFootball, eBasketball)	Real esports tournaments
225K+ annual H2H events	Official publisher data
24/7 availability	Authentic competitive gaming
12 US states live	Global reach
ESIC Gold Standard	Higher-profile events

Their Weakness: Simulated events only - no real esports tournaments

Win Message: "SIS does simulated games. We do real esports with real fans and real engagement."

TIER 3 COMPETITORS

---

vs Sportradar

Sportradar	Oddin.gg Wins
900+ operators globally	Esports-native expertise
Full sports coverage	Pure esports focus
Integrity monitoring	Faster, more agile
Partnership with Oddin.gg	Deeper esports markets
Enterprise scale	Better esports odds

Note: Sportradar partners with Oddin.gg for esports - they distribute our data!

Win Message: "Even Sportradar chose us for esports. That says everything."

---

vs Betconstruct

Betconstruct	Oddin.gg Wins
Full platform (casino, poker, etc.)	Esports specialist
20+ games, 80+ markets	Deeper esports expertise
14K live streams/month	Official data partnerships
Land-based + online	Pure focus = better product
FeedConstruct data	First-party relationships

Their Weakness: Jack of all trades, master of none in esports

Win Message: "Betconstruct does everything. We do esports better than anyone."

QUICK OBJECTION HANDLERS

They Say	You Say
"BETER has more events"	"Simulated events, not real esports. We have official tournament data."
"GRID has official data"	"They sell data. We sell a complete betting solution."
"PandaScore is cheaper"	"Free tier = scraped data. Official rights = trust."
"Sportradar is bigger"	"They partner with us for esports. Size doesn't equal expertise."
"We already have DATA.BET"	"Do they have CS2 Major official rights? We do."

ONE-LINER POSITIONING

> ***"Oddin.gg: The only esports betting provider with official publisher data, proven uptime, and a complete solution - from odds to risk management."***
